Support Coordination

- ✓ We connect you to a range of supports and services identified in your plan through negotiating with a range of providers.
- ✓ We help you to understand the NDIS, your NDIS plan and service agreements.
- ✓ We can help you manage your online NDIS account.
- ✓ We help you to achieve greater independence in the long term so that you can self-direct and manage your service
- ✓ Assist you in creating a detailed financial plan.
We work with you to review your supports and goals.
- ✓ We help you to find opportunities to be a part of the community.
- ✓ Manage any issues with your supports should they arise.
- ✓ Provide the NDIA with reports as required so that you can focus on the living that you want

If Support Coordination is included in your NDIS plan, there won't be any out of pocket expense. It is funded in the 'Capacity Building' support category of your plan. If it is not there, you can request a review by the NDIA.

Our Support Coordinators are here to help.
